Statement of Evidence:

D062

Northeast Corner of Section 6, Township 38 North, Range 31 West, East Langola Township, 4th Principal Meridian, Benton County, Minnesota.

1849 Original US General Land Office survey set a wood post at this location and bearing trees were recorded.

1986 On June 9, 1986 Thomas Thiessen, LS 16097, dug with a backhoe an 8"X10'X3' deep hole and found nothing. He set a cast iron monument at obliterated corner using the centerline of road north/south and occupation lines east/west. He filed a Certificate of Location (#308431) in Morrison County.

2002 No resurvey information was found on this corner in the Benton County records.

2006 At this location neither the original GLO corner post nor bearing or line trees were found. Westwood Professional Services, Inc. found a CIM at the in the north-south centerline on occupation lines east and west per document number 308431. This corner location fits the original GLO distance west within 2 feet assuming a 2-pole busts and east within 12 feet assuming a 2-pole busts. Several half-miles along the north County line appear to measure approximately 33 or 66 feet (2 or 4 poles) long of 2640. I accepted the CIM as marking the obliterated position and obtained updated coordinates.
