- 2008 The County Surveyor's Office searched and found a PK nail with a Benton County disk flush with the bituminous surface at the intersection of the centerline of east-west gravel road (90th Street N.E.) and the centerline of north-south bituminous road (County Road No. 66). Position gives distance to the NE corner as 2668.32 feet, the SE corner as 2659.84 feet, which agrees with distances as noted by Cleveland in 1912 of 2665 feet and 2659 feet respectively. The distance of 4939.95 feet to the E ¼ of Section 18 agrees with the 1915 survey of 4939.44 feet. The Surveyor accepts the position and updated ties.
