1916 County Surveyor's Record Book 1, page 6, shows survey by J. P. Soderstrum. He found Gov't BT lying down and made new tie:

7" R. Oak

SW

70 ½ links

He gives measurements of 39.88 chains (2632.08 feet) to NE corner and 40.26 chains (2657.16 feet) to the SE corner of Section 32.

2005 Sam DeLeo, LS 40341, reported finding an iron pipe with cap stamped LS 12236 and an old fence line to the west. The pipe was removed and a 10 foot long by 2.5 feet by 2 foot deep trench was excavated. No evidence of a monument marking the corner was found. Evidence of the accessories recorded in 1855 and 1919. The position of the iron pipe measured 2632.16 feet to the NE corner of the section and 2662.39 feet to the SE corner of the section which compares well with Soderstrum's 1916 measurements. The iron pipe was replaced with a cast iron monument and reference ties were recorded.
